Excavating a Fossil

Step 1: Use the bamboo skewer or craft stick to pick away at the substance surrounding your fossil. Work slowly, being careful not to damage your fossil.

Step 2: Once you find your fossil, use the paintbrush to remove any remaining small particles of the substance surrounding your fossil.

Step 3: Measure your fossil. Record your measurements in the space below.

Step 4: Describe and illustrate your fossil.

Illustration

Length: _____

Height: _____
